

Spelling bee Dominoes Level 1

HOW TO PLAY

1. The first player sets his domino, then the player to his left adds his tile to one of the free ends, and so on, going clockwise around the table with each player adding a tile.
2. Players add tiles that have the matching word or image.
3. As each player matches and plays a tile, a line is formed
4. The winner is the player who has no tiles left. In the event that no player manages to go out, the winner is determined by the remaining dominoes, and the player with the smallest total is declared the winner."
